

We Have Lift Off

Dynamics and Sound Quality

**ViolinSchool
MusicLand**

www.ViolinSchool.com

Listen to your sound as you play louder and softer, with a smooth bow.
Feel the excitement of your journey to the moon!

To the Moooooooooon! ...

We have lift off and we're nearing the moon

p *f* *tremolo...* *ff*

Activities

- 1) **Sing** the words whilst **signing** the note names with dynamics!
- 2) Make a beautiful **sound** as you get louder and softer.
- 3) To help play **softer**, use less bow and tip the stick of the bow away from you, to use less hair.
- 4) To play **louder**, use more bow.
- 5) Try this on the **G** and **E** string as well.

Tremolo

Play at the tip of the bow.
To help play this loudly, put more pressure on the stick with your 1st and 2nd finger.

When you see this 'rocket' symbol, lift your bow right off the string into the air, like a rocket lifting off!"
