

# Tapping Up and Down!

## Fingers On and Off

**Tap** your 1st finger up and down to play these notes. Keep it curved (not flat), so that it falls in exactly the right place!

*f* Tap - ping up and down fin - gers on and off.

3 *p* Tap - ping up and down fin - gers on and off. *p* Tap - ping up and down

6 *mp* fin - gers on and off. Keep on tap - ping, keep on tap - ping on and off! *f*

## Activities

- 1) **Sing** and **tap** the finger patterns on your right arm.
- 2) **Sing** the note names. Remember to **sing** or **say** 'Fs' (pronounced 'efs'), to represent F# using just one syllable!
- 3) **Pluck** the piece through, then **play** it with the bow. **Look carefully** at the last bar! The first finger has to move swiftly across to B on the A string.
- 4) **Write** your own piece using 'siren' patterns. Use GA, DE, AB and EF# in any order. Finish the piece on a D. Then **play** it to your friends!
